

Module 11 Assignment

Actors:

1. Students
2. Instructors
3. Administrators

User Stories:

Story Component		Actors	
As a(n)	Student	Instructor	Administrator
I want	To switch over to the dark theme	To be able to add reminders to course calendar events	to able to edit the permissions for all students
So that	I have less eye strain when I'm working in darker environments	My students don't forget to prepare for and submit course content.	I can manage the users to have permissions to make posts in the discussion threads
Acceptance Criteria	<ul style="list-style-type: none">- Dark background- Light text- Should have an option to set a schedule to change between dark and light themes	<ul style="list-style-type: none">- Reminder should have date and time when it will ping selected course students.- Reminder should have options to ping through email or D2L or both.- Reminder should be deleted after it has pinged students.	<ul style="list-style-type: none">- Should be able to view which students are enrolled in which courses- Manage student permissions on a per course basis
